

ZERO BUDGET NATURAL FARMING

CURRENT AFFAIR

- Policy shift in budget 2019.

ZERO BUDGET NATURAL FARMING

- Do nothing Farming
- Application of nature's principles in farming
- Dispersal of clay seed balls
- Locally available material

CONCERNS

- Cost- little research done regarding cost reduction
- Yield- more demand for high-value commodities.
- Training- farmers not trained to make a shift.
- Availability of livestock doubtful

OTHER MEASURES TO BE TAKEN

- More investment in irrigation
- Farmers are unaware of technological interventions and new farming practices.
- Marketing of agricultural commodities
