You'll need to add a 15/0, a dagger, a 15/0 between the beaded groups. At the end of lap your work will be presented so

Climb in the beads and bring in the Briolette 3 * 4mm, now put a 15/0, a 11/0, a 15/0 and bring in the following briolette. Repeat the whole round.

Climb in beads again and get out of the high hole of a miniduo. Add two 15/0 seed beads and pass in following Miniduo. Repeat the entire round, fold in the beads several times, block the thread and cut the excess.

Your pendant is ready.

To decorate I added: a spacer, a 6 * 4mm Briolette, a spacer, and a 3 * 4mm briolette. Once you send down the beads I made a simple ring.

I hope to see your versions soon, I would like to collect your creations in an album on my Facebook page and for this I ask you to send me the photo of the finished work!!!
